The Conqueror UEV-490 is manufactured using a combination of aluminium and motor industry grade electro galvanized steel		✓	✓
All parts are epoxy coated or better known as powder coated and is more resistant against scratches, chipping, wear and fade compared to other finishes		✓	✓
Components are of a modular design allowing for easy panel replacements in case of accident damage		✓	✓
No wood, fibreglass or other degradable materials are used		✓	✓
Only stainless-steel bolts & nuts are used during assembly		✓	✓
All door apertures are sealed using motor industry grade door seals		✓	✓
Structural components are designed and manufactured for maximum strength with minimal weight.		✓	✓
Our unique design and assembly techniques borrowed from the aeronautical industry, significantly reduces metal fatigue and improves body flex resulting in a more durable and longer lasting camper		✓	✓
